Profile

Motivated Computer Engineering student looking for a PFE internship. Passionate about software development, AI, cloud computing, and networking. Skilled in Python, Java, C++, and full-stack development. Strong problem-solving, teamwork, and analytical skills developed through academic projects and internships. Eager to contribute to innovative projects and gain hands-on industry experience.

Experience

Software & Systems Intern – SOMEF

Jun 2025 – Aug 2025

- Assisted in software deployment, automation, and system optimization.
- Developed Python and PowerShell scripts for tasks and reporting.
- Collaborated with IT teams using Agile methodologies.

Networking Intern – Agil Energy Tunisie

Jul 2024

- Configured and monitored secure LAN/WAN networks.
- Assisted in automation of network troubleshooting and documentation.

Technical Skills

Programming: Python, Java, C++, JavaScript, Node.js

AI & Data Science: NumPy, Pandas, Scikit-learn, TensorFlow (basic)

Databases: MySQL, Oracle, SQL Server

Tools: Git, Docker, VS Code, Jupyter Notebook

Cloud: AWS (Certified), Azure

Other: REST APIs, Agile (Scrum), Documentation, Troubleshooting

Education

Higher Institute of Information Technologies and Communication (ISTIC) – Borj Cédria

Bachelor in Computer Engineering (Sep 2024 – Present)

Lycée Ibn Khaldoun

Baccalauréat in Mathematics – 2023

Academic Projects

Student Mental Health Web Platform – Node.js, MySQL, JavaScript, REST APIs

- Developed a full-stack web platform connecting students and therapists.
- Implemented secure authentication, mood tracking, and appointment scheduling.
- Used Scrum methodology in a 2-person team.

Arabic Sign Language Translator – AI, Computer Vision, Deep Learning

Developed an end-to-end system that recognizes Arabic Sign Language (ArSL) hand-signed letters using computer vision and a CNN-based classifier. Implemented real-time processing to convert detected letters into coherent words and sentences.

Certifications

- AWS Academy Cloud Developing
- Scrum Fundamentals Certified (SFC)
- 365 Data Science: Introduction to Python
- Cisco: Introduction to Cybersecurity
- LFS101: Introduction to Linux – The Linux Foundation

Languages

Arabic — French — English
