Skills

- Data Analysis
- LAN/WAN Configuration & Network Administration
- Python Programming
- Linux System Administration
- Microsoft Office Suite (Word, Excel, PowerPoint) – Expert level (MOS Certified)
- Technical Report Development
- Cisco Router & Switch Configuration
- DHCP, NAT, and VLAN Management
- Network Security (Firewalls, VPNs, Access Control)
- TCP/IP, DNS, and Routing Protocols (RIP, OSPF, EIGRP)
- Wireless Network Setup & Optimization
- VoIP Configuration

Dynamic and results-driven professional with experience at Tunisie Telecom, skilled in data analysis and network management. Proven ability to enhance operational efficiency through proactive maintenance and performance monitoring. Adept communicator with a strong foundation in Python programming, committed to delivering exceptional service and fostering team collaboration.

Work History

2024-09 -
2024-12

Internship Student

Tunisie Telecom, Ariana

- Supported staff members in their daily tasks, reducing workload burden and allowing for increased focus on higher-priority assignments.
- Monitored network performance closely, promptly identifying potential issues and taking corrective action to maintain optimal functionality.
- Assisted in the planning and execution of system upgrades, minimizing disruptions for end-users during transition periods.
 - preventive maintenance schedules for all telecom equipment within the organization's network infrastructure.
- Reduced downtime significantly by developing

Internship Student

societe tunisienne d'entreprises de telecommunications

Network Installation & Configuration

- Assisted in configuring routers and switches (Cisco, Huawei) for enterprise clients.
- Participated in setting up LAN and WAN infrastructures for client sites.
- Helped configure DHCP, NAT, and VLANs to manage internal networks.
- Performed cable installation, labeling, and testing using LAN testers.

Network Security & Maintenance

- Supported the configuration of firewalls and VPN connections.
- Assisted in monitoring network performance and detecting connectivity issues.
- Helped implement IP addressing and subnetting plans.
- Participated in troubleshooting network incidents and documenting solutions.
